The Public Works Department works hard to ensure every City residence is provided with once per week curbside garbage collection, once per week curbside recycling collection and twice per month rubbish/debris collection. Public Works also provides street maintenance and resurfacing, mosquito control in the summer and fall and landscaping for municipal parks and buildings. West Hill Cemetery and Chapel are also special responsibilities of the Public Works Department.

For storm water emergencies please call Dalton Utilities dispatch at (706) 529- 1000. For non emergencies contact Caleb Martin at(706) 463- 2020
